

Agent Name

Hospital Receptionist Agent

HERO SECTION

Agent Name

Hospital Receptionist Agent

ID

HOSP-REC-001

Tagline

Provides patients with appointment scheduling, rescheduling, cancellations, doctor information, and hospital assistance through a conversational voice experience.

OVERVIEW

The Hospital Receptionist Agent is an AI-powered voice assistant designed to support patients calling City Hospital. Acting as a virtual front-desk receptionist, the agent helps patients book appointments, reschedule visits, cancel existing bookings, and obtain essential hospital information.

By guiding callers through a structured conversation, verifying patient details, and integrating directly with appointment management systems, the agent ensures a smooth and efficient patient experience while reducing administrative workload for hospital staff.

SYSTEM REQUIREMENTS

- Voice Calling Platform
- Appointment Scheduling System

- Patient Lookup Database
 - Appointment Management Functions
 - Email Notification Service
 - Doctor Directory
 - Hospital Information Repository
 - Human Receptionist Escalation Workflow
-

OPERATIONAL PROTOCOL

HOW IT WORKS

The Hospital Receptionist Agent answers inbound patient calls and identifies the caller's request.

For appointment bookings, the agent collects patient information, appointment preferences, and visit details before creating a confirmed booking. Patients may also request a booking link through email.

For appointment modifications, the agent verifies identity using the patient's phone number, retrieves existing appointments, and performs rescheduling or cancellation actions as requested.

The agent also provides general hospital information, doctor availability details, operating hours, and location guidance. If a request requires additional support, the caller can be transferred to a human receptionist.

EXPECTED OUTPUT

The Hospital Receptionist Agent provides:

- Appointment booking assistance
- Appointment rescheduling
- Appointment cancellation
- Patient verification
- Doctor availability information
- Hospital operating hours
- Location and contact assistance
- Email booking link delivery
- Patient support guidance

- Human receptionist escalation
-

OUTPUT SAMPLES

Sample 1

Appointment Booking

Patient Request

I'd like to book an appointment with a cardiologist.

Agent Response

Certainly. May I have your full name?

Thank you.

Could you please provide your phone number?

Which date and time would you prefer for the appointment?

I have successfully booked your appointment with Dr. Perna Ladkani. A confirmation has been recorded.

Sample 2

Appointment Rescheduling

Patient Request

I'd like to move my appointment to next Friday.

Agent Response

I'd be happy to help.

Could you please provide the phone number associated with your appointment?

Thank you.

Which appointment would you like to reschedule and what is your preferred new date and time?

Your appointment has been successfully rescheduled.

Sample 3

General Information

Patient Request

What are your hospital timings?

Agent Response

City Hospital is open Monday through Friday from 8 AM to 6 PM and Saturday from 9 AM to 1 PM.

The hospital remains closed on Sundays.
