

I have uploaded a PDF containing the finalized content for the **Hospital Receptionist Agent**.

IMPORTANT:

This update should apply **ONLY to the Hospital Receptionist Agent**. Do not modify any other agent pages, cards, content, configurations, routes, components, workflows, or data files in the application.

Your task is to:

1. Read the uploaded PDF completely and extract all content.
2. Locate the existing Hospital Receptionist Agent configuration and detail page.
3. Replace all placeholder or dummy content with the content from the PDF.
4. Preserve the existing UI design, layout, styling, spacing, typography, icons, animations, and component structure.
5. Update only content-related fields.

Map the PDF content to the following sections:

- Agent Name
- Agent ID
- Hero Tagline
- Overview
- System Requirements
- Operational Protocol
 - How It Works
 - Expected Output
- Output Samples
- Agent Card Description
- Agent Tags
- Sidebar Requirements List

Requirements:

- Do not rewrite, summarize, or paraphrase the PDF content.
- Use the content exactly as provided in the PDF.
- Do not create new sections.
- Do not create new UI components.
- Do not modify functionality, integrations, appointment workflows, or voice agent logic.
- Do not change routing, navigation, styling, or page structure.
- Maintain existing formatting for paragraphs, bullet points, lists, sample outputs, and code blocks.
- If content is stored in JSON, TypeScript, JavaScript, React components, configuration files, or data files, update the appropriate source files accordingly.
- Ensure the homepage Agent Card content matches the detailed agent page content.

CRITICAL SCOPE LIMITATION:

- Modify ONLY the Hospital Receptionist Agent.
- Do NOT update the HR Agent.
- Do NOT update the Expense Intelligence Agent.
- Do NOT update the Task Companion Agent.
- Do NOT update the Help Desk Agent.
- Do NOT update the Campus Concierge Agent.
- Do NOT update the Appointment Booking Agent.
- Do NOT modify any shared templates unless the change affects only the Hospital Receptionist Agent content.
- Do NOT alter any other cards displayed on the AgentHub homepage.

After completion:

1. Provide a list of all modified files.
2. Explain what was updated in each file.
3. Confirm that only the Hospital Receptionist Agent was modified.
4. Verify that no other agent content, functionality, workflow, or UI was changed.
5. Confirm that the agent name displayed everywhere is "Hospital Receptionist Agent".
